When I was a physics student we had Brehm and Mullin "Introduction to the structure of matter" as textbook. <http://www.amazon.com/Introducti...> I don't know if it is the best textbook but it covers a lot of subjects.

What is the best referece book to study atomic structure

Lyman series. The first line in the spectrum of the Lyman series was discovered in 1906 by Harvard physicist Theodore Lyman, who was studying the ultraviolet spectrum of electrically excited hydrogen gas. The rest of the lines of the spectrum (all in the ultraviolet) were discovered by Lyman from 1906-1914.
