Communications System Toolbox Examples - Design and simulate the physical layer of communications systems.

Communications System Toolbox Examples - MATLAB & Simulink

Familiarize yourself with MATLAB using this concise, practical tutorial that is focused on writing code to learn concepts. Starting from the basics, this b

Introduction to MATLAB for Engineers and Scientists - pdf

In this article, the author describes basic image processing using MATLAB software. MATLAB is a high-performance language for technical computing with powerful commands and syntax. It is used for many purposes like Maths and computation, data analysis, algorithm development, modelling stimulation ...

Image Processing Using MATLAB (With Source Code)

MATLAB® software is used for numerical computation, visualization, and programming. It lets users explore and visualize ideas and collaborate across disciplines including signal and image processing, communications, control systems, and computational finance.

STM32-MAT/TARGET - STM32 embedded target for MATLAB and Simulink (RN0087), STM32-MAT, STMicroelectronics

STM32-MAT/TARGET - STM32 embedded target for MATLAB and

TI is a global semiconductor design & manufacturing company. Innovate with 80,000+ analog ICs & embedded processors, software & largest sales/support staff.

Texas Instruments - TI.com

The MathWorks, Inc. (branded as simply MathWorks) is an American privately held corporation that specializes in mathematical computing software. Its major products include MATLAB and Simulink, which support data analysis and simulation. As of June 2016, it employed over 3,500 people worldwide with 70% located at the company's headquarters in Natick, Massachusetts, United States.

TI's new C66x fixed- and floating-point DSP core conquers the "Need for Speed" November 2010
Texas Instruments 3 Up to eight, floating-point multipliers can run simultaneously on a C66x DSP core.

TI's new C66x Fixed- and Floating-Point DSP Core Conquers

The bit error rate for binary phase shift keying (BPSK) in AWGN is derived. The simulation scripts in Matlab/Octave also provided.

Bit Error Rate (BER) for BPSK modulation - dspLog

GNU Octave is software featuring a high-level programming language, primarily intended for numerical computations. Octave helps in solving linear and nonlinear problems numerically, and for performing other numerical experiments using a language that is mostly compatible with MATLAB. It may also be used as a batch-oriented language. Since it is part of the GNU Project, it is free software under ...

1. INTRODUCTION - A transistor is a small electronic device that can cause changes in a large electrical output signal by small changes in a small input signal. That is, a weak input signal can be amplified (made stronger) by a transistor. For example, very weak radio signals in the air can be picked up by a wire antenna and processed by transistor amplifiers until they are strong enough to be ...
