Notes on Engineering Economic Analysis Introduction The economic analysis of alternative energy sources typically involves the comparison of an initial cost with a future savings. For example the decision to pay more money for a vehicle with a hybrid drive train is based on a comparison of the higher initial price for the hybrid drivetrain with the future savings in fuel costs. Similarly the ...

The Carbon Cycle, Organic Matter and Maturation. Petroleum Geology AES/TA 3820 Why is Carbon so Important in the Life Cycle? Carbon has numerous ways of bonding with many other elements, particularly oxygen and hydrogen It forms "organic" and "inorganic" compounds. Organic compounds are considered unstable in the biosphere because they are in the reduced state. Inorganic compounds ...
