Prediction markets (also known as predictive markets, information markets, decision markets, idea futures, event derivatives, or virtual markets) are exchange-traded markets created for the purpose of trading the outcome of events. The market prices can indicate what the crowd thinks the probability of the event is. A prediction market contract trades between 0 and 100%.

FIFA World cup 2018 Predictor Spreadsheet Excel

Paul the Octopus (26 January 2008 – 26 October 2010) was a common octopus used to predict the results of association football matches. Accurate predictions in the 2010 World Cup brought him worldwide attention as an animal oracle.. During divinations, Paul's keepers would present him with two boxes containing food. The boxes were identical except that they were decorated with the different ...
